

18 OCT 1974

MEMORANDUM FOR: Director of Joint Computer Support
SUBJECT : Inventory Control System (ICS)

1. This memorandum confirms our oral discussions with representatives of your Office in which we agreed to cease parallel operations of the Stock Accounting System (SAS) and the ICS effective with the update cutoff on 27 September. With the concurrence of Office of Finance, Audit Staff, and Supply Division, inventory control operations and reporting will utilize the ICS exclusively from that date forward.

2. Until sufficient transaction history is accumulated in the ICS data files, we must rely on the SAS data base for that information. For that reason, we request that the SAS data base be maintained in a manner which will provide that transaction history to us as required. Supply Division requests that 2 years of combined SAS and ICS history be available at all times.

3. We wish to express our appreciation for the cooperation of everyone in your Office concerned with the implementation of the ICS. We look forward to continuing that cooperation as we move forward to the Requisitioning module and succeeding modules of the Materiel Resources System.
